SUBJECT: Burn-Zol Hazardous Waste Incinerator Closure Plan
United Technologies - Pratt & Whitney
East Hartford, CT EPA ID # CTD990672081

Dear Sirs:

Pratt & Whitney has received your comments dated April 27, 1989 in response to our most recent closure plan submittal for the Burn-Zol hazardous waste incinerator. This closure plan, dated May 2, 1988, represents our efforts following three previous comment periods dating back to the original submittal of January 10, 1986.

We are currently modifying the closure plan for the next submittal; however, in order to adequately address all of the comments, we need to further investigate closure alternatives. This requires a much larger scope of work and includes consulting with firms which specialize in this type of work. We are currently awaiting revised proposals and cost estimates. The revised costs estimates will be necessary to properly update all closure cost estimates as required.

In addition to the comments which indicate significant revisions, several of the comments are subject to interpretation. We would like to schedule a meeting at your earliest convenience to discuss these comments and hopefully better define the scope of the required changes.

We respectfully request a sixty (60) day extension to prepare our next closure plan submittal.

Your cooperation and patience in this matter are greatly appreciated.

John G. Whitehead
Plant Manager
